LABOR SERVICES DIVISION[875]

Adopted and Filed

Pursuant to the authority of Iowa Code section 89A.3, the Elevator Safety Board hereby amends Chapter 72, "Conveyances Installed On or After January 1, 1975," Iowa Administrative Code.

This amendment adopts by reference relevant portions of the most recent version of the American Society of Mechanical Engineers A18.1, "Safety Standard for Platform Lifts and Stairway Chairlifts." Adoption of the most recent national code helps Iowa building owners by allowing them to install the most current technologies available on the national market, and helps elevator users by making the most current safety code applicable on new installations.

The purposes of this amendment are to make the rule current, protect the health and safety of the public and implement legislative intent.

Notice of Intended Action was published in the October 16, 2013, Iowa Administrative Bulletin as **ARC 1108C**. No public comment was received on the proposed amendment. This amendment is identical to the amendment published under Notice of Intended Action.

No variance procedures are included in this rule making. Applicable variance procedures are set forth in 875—Chapter 66.

After analysis and review of this rule making, no impact on jobs will occur.

This amendment is intended to implement Iowa Code chapter 89A.

This amendment shall become effective on January 31, 2014.

The following amendment is adopted.

Adopt the following **new** subrule 72.1(9):

72.1(9) For installations on or after January 31, 2014:

- a. ASME A17.1 shall mean ASME A17.1-2010/CSA B44-10, except for Rule 2.27.1.1.6;
